Let "Women" Speak & he also alleges those Nazis "attended" our rally

Thank you

No worries

How are you feeling after today?

His whole entire defence is victim blaming a female rape victim trying to raise the alarm on unwise laws at a cross political rally called 'let women speak'- who was assaulted & threatened on the day by Nazis & hundreds of insane fat left protestors.
Way to prove you don't hate women JP

Edited

I feel re traumatised

Resolute as always.

This is bigger than me. I'm fighting for child safety & I will not be deterred by malicious lying losers who care more about translobby approval than women's & children's safeguards.

I think my affidavit will be the single most damning document of the whole trial because I have evidence to back it all up & it will tell everything all in one go.

I've started writing it & it's seriously traumatic just to go back over all the terrible things they've done. They planned it all from the start.

Ugh yeah I bet it's hard to have to relive it all

Loved "I think my affidavit will be the single most damni..."

Liked "We have to have it all submitted by 29 March"

Yep. At least ppl will finally see the truth
