The two-candidate preferred count is intended to provide an early indication of election results but has no status in determining the actual election outcome. Minor variations may be observed with rechecked results and the preference distribution.

Learn more about the [two-candidate preferred count](#) (<https://www.youtube.com/watch?v=6AltSpXArmc>) (video).

Please note the two-candidate preferred (2CP) count has been superseded by the preference distribution for this district. You can still view the 2CP results by voting centre by following the link above.

# Full preference distribution

This district would normally not require a full preference distribution because the elected candidate achieved an absolute majority before all or any preferences were distributed. In 2023, we conducted an indicative full preference distribution for information and statistical purposes.
