

To whom it may concern

On the 23 March 2019 at approximately 0150, two staff from Minister Reynold's office (M1- 23) came in through Point 8 and requested (Positively Identified) green passes as they had forgotten theirs

I PSS Officer Mark Fairweather then asked for identification which they both produced before I could issue their passes (34644) and (25396)

I observed that the female may have been affected by alcohol as she stumbled whilst trying to self-clear through the Walk through Metal Detector

I then asked Nicola Anderson (Foxtrot 4) who was in the area could she escort the two pass holders to the suite

I then called the PSOR and informed them of the pass numbers, and that there would be an entry into the suite

At approximately 0230 the male pass holder exited (alone) through Point 8 in a hurry and dropped off his pass. I asked him if he was coming back. He didn't stop and hastily replied "NO"

Straight after this I contacted Kevin Callan (Security 3) and I formed him of the situation and my concerns of the welfare of the female pass holder

Regards

PSS Officer

Mark Fairweather
