**Subject:** VO today

---

Hi Chris, Karen, Rowan, Sam, Laura and Darryl

Rowan now has access to the scripts so he can do the VO with Lisa after 1pm today.

Rowan can send this VO as a file to Sam - the same more secure system we've been following rather than putting anything on the drive.

Rowan of course will need **the audio guy Russell at TEN** to do this. Russell is a TEN employee who works with NEWS, so do we need to quickly think about making sure NEWS don't find out about this no matter how great Russell is.

Simple solution of course could be to get Lisa to record it at home but it's certainly not going to be as good. Anyone else have a better solution - it'd be optimal to get the best VO done today if we can at TEN.

cheers

Angus
